do the transportation themselves. The American Legation at Berlin has of late been frequently called upon to intervene in behalf of naturalized citizens of the United States, who have returned to Germany to reside temporarily, and who, while there, have been called upon by the German authorities to perform military duty, and to respond to the obligations of laws from which foreigners are exempt. A recent dispatch received at the Department of State from Mr. Taylor, the American Minister at Berlin, says in relation to subject, that in view of the prevailing political agitation in Germany, and the increased tendency toward repressive measures on the part of the Government, it would be well if naturalized citizens contemplating visits to their former homes were officially advised that many possible annoyances may be avoided by declaring the probable term of their stay to the local German authorities on arriving, by abstaining from irritating political discussions, and by quickly observing such municipal laws and regulations as apply to temporary as well as permanent residents.

The Secretary of the Interior has rendered an additional decision to the Commissioner of the General Land-Office in the well known Dudymott case. The appeal was taken for reversal or suspension of the former decision. Secretary Schurz declines to do either, and the former decision, by which large tracts of land covered by land grants to railroads were opened to settlement, is to stand, unless reversed by a decision of the Courts. Immense numbers of applications have been made to enter lands under the former decision. It is expected the railroads will take immediate steps to appeal to the Courts.

Platform Adopted by the Kansas Dem-

LEAVENWORTH, Sep. 4.—The following is the platform adopted by the Democratic State Convention in session here to-day:

State Convention in session here to-day:

We, the representatives of the Democracy of the State of Kansas, is Convention assembled, do declare—

First, That the induction of Rutherford B. Hayes into the office of President, notwithstanding the election of Samuel J. Tilden thereto, was a high crime against free government, which has not been condoned and will not be forgotten. The same spirit of patriotism which forbore contest upon the first offense will resist and punish any attempt at a second.

triotism which forbore contest upon the first offense will resist and punish any attempt at a second.

2. That the declaration to reform the civil-service, which has been proclaimed by the present Administration, is, like its adopted Southern policy, a confession of the failure of Radicalism, and a just tribute to the Democracy, which has long and earnestly demanded the overthrow and punishment of corrupt officials.

3. A cheerful obedience to and rigid enforcement of the forms of law are inseparable from a stable condition of society and the due protection of private rights.

4. That we accept the admonition of Jackson in saying concerning standing armies as dangerous to free governments in time of peace, "I shall not seek to enlarge our present establishment nor disregard the salutary lesson of political experience which teaches that the military should be held subordinate to the civil power," Accordingly the Increase of the Federal Army or any attempt to employ it as a partisan agent of Federal authority, or for interference with the sovereign rights of the States, will receive the continued servest convestions of the Pemocracy of ty, or for interference with the sovereign rights of the States, will receive the continu-ed earnest opposition of the Democracy of the State.

5. That the enforced idleness of hundreds 5. That the enforced idleness of hundreds of thousands of heretofore industrious, honest and patriotic laboring men, and the threatened spread of a dangerous spirit of Communism in this country, are the legitimate outgrowth of the vicious financial legislation of the Republican party, and that the only effectual guarantee to labor of its due and proper reward, and the correction of the manifold evils that are depressing labor, commerce, and all legitimate enterprise, is in a complete reversal of the policies that have for thirteen years held sway; that the remedy is not in a resort to the despotic forms of Grantism, but in the re-establishment of Democratic forms, and equal instead of class legislation.

mate, Wm. Dartis, were killed or drowned.

None of the passengers were seriously hurt.

Several of the crew were injured by steam, and George Edmondson, cook, fatality.

The Maine election, held on the 9th, re-

purposes.

8. That we are in favor of a tariff for reve-

date for Congress in the Third District, has beaten both of his competitors, and is probably elected, although, as it requires a majority vote to elect, another vote may be necessary.

public.

10. That it is the duly of the State in the protection of society against convicted criminals, and performing its duty in teaching them useful occupations and fitting them for future usefulness, to provide for the protection of mechanical labor against the damagnetic of the protection of mechanical labor against the damagnetic of the protection of the control of the contro the yellow fever scourge, is an organization which was formed at New Orleans during the prevalence of the same plague in 1853.

Stare.

12. That for the purpose of developing the agricultural interests of the West, insuring to the producer the just reward of his industry, we are in favor of all proper measures for the improvement of our Western rivers.

13. We demand the repeal of the unjust and oppressive act of Congress of March 3, 1875, which compels citizens of our State to travel hundreds of miles from their homes, at great expense, to attend to cases in the Federal Courts, when the same cases could be tried in the State Courts, and in the county wherein the defendant resides.

14. We do hereby declare the Democracy of Kansas to be in favor of the liberty of individual conduct, unvexed by sump turny laws.

15. The action of the Democratic House of Representatives of the Forty-fourth and Forty Courts of the the highest.

Representatives of the Forty-fourth and For-ty-fifth Congress is entitled to the highest commendation for the wise and economical

The Yellow Fever Scourge-An Appeal to the Charitable.

WASHINGTON, D. C., September 8.-The following appeal was issued to-day:

AN APPEAL TO THE CHARITABLE. AN APPEAL TO THE CHARITABLE.

To the Chambers of Commerce and the Charitable of the Chief Cities of the Union: The cry of anguish from the stricken cities and people from the South has been answered by a noble burst of charky from cities and people of the whole country. Contributions, great and small, have been extended to sufferors. The Secretary of War has generously extended the aid of the Government to the poor and needy of the pest-ridden cities. But great as has been the charity, the necessity is yet greater, and the sums subscribed are yet inadequate to the wants of the suffering in New Orleans, Vicksburg and Memphis, as well as in the smaller towns of Holly Springs, Grenada, Port Gibson, Canton, Greenville, Brownsville, Baton Rouge and Delhi.

ALL BUSINESS IS ENTIRELY SUSPENDED.

turning from Gravesend with some 800 persons on board, a large proportion of whom were women and children, was run down off Barking by the Bywell Castle, a screw collier, and in less than five minutes went down bow foremost. The number of lives lost is variously estimated at from 600 to 700, although the precise number will probably never be ascertained. A survivor describes the scene as the most terrible that can be imagined. Some small boats and another excursion at teamer rendered what assistance they could, but of the hundreds of shrieking victims who remained floating in the water after the steamer sank, but a handful comparatively were saved.

ALL BUSINESS IS ENTIRELY SUSPENDED.

It is estimated that in the suspension of business on the Mississippi River south of business on the dississippi River south of business on the Mississippi River south of business on the Mis ALL BUSINESS IS ENTIRELY SUSPENDED.

NOTHING BUT DEATH OR STARVATION, and this condition must last at least for fifty days, for there will be no stay of the pestilence, no resumption of business until frost, Averaging the support of each individual at 20 cents per day, which is 10 cents less than the cost of an army ration, for fifty days' support the suffering and destitute will cost \$1,080,000, and this for subsistence alone—nothing for medicines, clothing and proper sustenance for the sick and burial of the dead has been taken into account in this calculation. It has occurred to the undersigned that a comprehensive system of relief should be at once inaugurated to avoid the appaling distress which will sicken and shock humanity when to the awful destruction of the plague are added the horrors of famine.

A COMPREHENSIVE PLAN OF RELIEF. NOTHING BUT DEATH OR STARVATION,

plague are added the horrors of famine.

A COMPREHENSIVE PLAN OF RELIEF.

We suggest that each of the great, cities of the Union a central depot for the reception of supplies be at once opened, where contributions of provisions, tea, coffee, wines, medicines and clothing may be sent. The lines of transportation, over both land and water, have volunteered to transport supplies to the stricken cities free of charge. Let New Orleans, which is the most accessible by sea and land, and which has more facilities for transportation, be constituted the central depot for the reception of supplies which can be forwarded to the Howard and Feabody Associations of that city as fast as collected. be forwarded to the Howard and Peabody Associations of that city as fast as collected. Let Vicksburg, Memphis and smaller towns that are afflicted send to New Orleans their agents to aid in receiving, distributing and forwarding pro rata supplies to the respect-ive towns and cities for which they are des-tined. We appeal to Chambers of Commerce of the great cities to inaugurate this move-ment forthwith; we appeal to the charitable and good; we appeal to the ministers of God for their influence, and their congregations.

EVEN THE SMALLEST DONATION of provisions, money or medicines, will be acceptable. The character of the noble gen-tlemen who compose the Howard Associa-tion and Peabody Association, and the Young Men's Christian Association, is a guar-Young Men's Christian Association, is a guarantee that all charities donated will be promptly and honestly applied. In the name of a common country and kindred humanity we invoke for our stricken, dying and starving people, the charity of those whose homes and loved ones are secure from the pestilence that walketh in darkness and the destruction that wasteth at noonday.

The Chicago correspondent of the Troy Times writes: "If you will take a Government surveyor's map and trace the boundary line between the States of Michigan and Wisconsin at the extreme northerly part of those States, you will see Boot Lake, which is near the source no text. He often illustrates ideas with passages identical with Milton's "Paradise Lost;" yet he never saw that of the Brule River, and located in what work, and probably does not know Mil-ton ever lived. His discourses are libis known as the trackless forests of the great Brule country. This morning a party of ladies and gentlemen, mostly from this city, will leave here for that wild country for a month's recreation. eral in doctrine, whereas the Amish Church is exclusive and dogmatic. He speaks in the German and English languages. On one occasion, however, he spoke about twenty minuts in German; then for more than an hour in a lansible portions of country in the center of our Continent, and that the face of a Two hundred stem-winding Amerione of the British Plenipotentiaries at can watches have recently been sent to

Berlin, but he is reported to have deand talent listening; and suddenly closed | animates the ladies of the party, it should be known that after proceeding by reg-ular rail to Menominee, thence by a mining railroad to Bad Water, from that clared the word of God in three lan-guages, and shown how to gain the ark point the entire party will be compelled in safety, and avoid the pit. He sets forth but two churches: Christ, light, forests before they strike the Brule River. Here they will be taken in charge hate, selfishness. He often gives passages of Scripture, and, being ques-tioned the next morning about them, by Indians who are engaged as voy ageurs, guides, etc., and in canoes will proceed up the river some two hundred miles. The forests along the route are mostly composed of pine, very thickly what is in the Old Testament. At the studded, and a great fire having at some close of his discourse he gives a short benediction and the Lord's Prayer, and time swept through the district covering hundreds of square miles, the ground is falls on his couch, apparently exhausted, so strewn with fallen trees and entangled his whole person having the appearance of a dead man; and, after a few debris that it is almost impossible to get a beast of burden through, and much of moments of convulsive tremor, suddenthe way even an Indian finds it difficult awakes, gets up, and walks out of The next morning he gets country it would be hard to find. But a up, says he has had a good night's rest, long way up the Brule the country opens and becomes more tenable, and it is here the sportsman finds his paradise. Thouso it has been for months, every night. sands and thousands of deer flock upon the hills, so unused to danger that they become easy prey to the rifle of the hunt-er. Myriads of trout, bass and salmon The mystery, of course, soon began to spread abroad. At first it annoyed the family very much, as it kept them from sleep and rest: but they could not inhabit the streams and small lakes, prevent it; and soon the crowds which while wolves, bears, foxes, and lynx gathered compelled them to adapt themabound, some of them approaching at times even to the tent opening of the ad-venturous explorer. The experiences phenomena, and are all alike puzzled, but agree that there is no deception about it. When he is speaking, his eyes are closed, his abdomen and and afford romance enough for many

coming winter evening. A New Pest to the Corn.

The Hartford Times of Aug. 30 says: "The Meriden correspondent of the Times sends us samples of ears of corn, have been ruined by a devouring pest, and with them samples of the bug which does the mischief. It is a good-sized six-legged, evil-looking bug, rather larger and much flatter than the potatobug; in color brown, and having a wide body and very small head, the latter provided with a pair of mall anten-næ, or 'feelers.' The creature begins his ravages at the tip-end of the ear o corn, and devours the kernels as he works onward towards the butt-leaving in his track only a dirty mess o large number of people were present from surrounding towns and cites. After speaking over an hour and a substance. with the Lord's Prayer; but in- alarming ravages of a new pest there, Burlington correspondent says fields of corn are ruined almost in a single day, will suddenly turn brown and dead, and the turf itself can he raked off-the roots having all been cut by the ravages of something which the Burlington farmstrike twice in the same place?" Prof. of people, the change was quickly that ers believe to be the same bug that ruins

Extraordinary Enterprise. A quarter of a century ago there was

a memorable conflagration at Sacramen-to City, Cal., by which the entire business portion of the city was laid in ashes. When the great fire was at its maximum fury a wealthy merchant named McNulty, who owned some of the heaviest business establishments in the city, gazed for a few moments upon the work of destruction, and then, instead of folding his hands and weeping over the disaster, he went to the nearest livery stable, hired a fleet-footed horse, rode like John Gilpin during the remainder of the night, and before daylight the next morning had purchased every foot of lumber and every saw-mill at Grass Valley and Nevada City There is, possibly, no human being on earth who would think of running off by the light of his burning property in order to literally make his of the disaster except an American McNulty did so, however, and almost immediately realized out of the sale of his lumber fourfold as much money as
